- J
- W

B.A. Requirements (Anthropological Perspectives)

- A: ONE (1) Anthropological area course focused on the peoples/cultures of a specific world region or area (e.g., Middle East, Oceania/Pacific, Southeast Asia, West Africa, &c) (4 cr.). Choose from: ANTH 251-273, 340-344, 367-370, 374-379.
- B: FIVE (5) Upper-level (300/400) Anthropology courses (20 cr.). To concentrate in a particular subfield, you should take at least three courses from that subfield. ANTH 491 is not allowed; a maximum of 4 credits (total) is allowed of any combination of ANTH 495, 497, and/or 499.
- C: SIX (6) lower-level (100/200) Anthropology courses (24 cr.). Students should take three out of the four foundations courses (ANTH 166 [Sociocultural]; ANTH 114 or 118 [Linguistic]; ANTH 168 [Biological]; ANTH 167 or 169 [Archaeology]); to concentrate in a specific subfield you must take the intro course for that subfield.
- D: TWO (2) elective courses taken at the 300/400 level in Anthropology or other social sciences (8 cr.).

Benchmarks

- End of Junior year: 96 (min.) credits completed, including all (or almost all) Harpur GenEd and Writing requirements, and 32+ upper-level credits
- End of Senior year: 126 (min.) credits completed, including ANTH 501 (Fall term), and two additional 500-level courses; all three 500-level courses will be counted toward both undergraduate and graduate degrees

M.S. in Biomedical Anthropology Requirements

- ANTH 501 The History of Anthropological Thought (4 cr.)
- ANTH 540 Human Skeletal Biology (4 cr.)
- ANTH 541 Human Biological Variation (4 cr.)
- ANTH 572S Advanced Multivariate Statistics (4 cr.)
  - (or other approved quantitative methods course)
- ANTH 544 Forensic Anthropology OR ANTH 550 Co-evolution of Human & Pathogens (4 cr.)
