Curricular Practical Training for F-1 Students

Frequently Asked Questions About Curricular Practical Training
U.S. Regulations Governing Curricular Practical Training (CPT) for F-1 Students
Student's Checklist : Applying for Curricular Practical Training
Academic Advisor's Form for Curricular Practical Training
Sample CPT Letter Needed From Employer

* Don't forget - you are required to register for at least one course credit that reflects your CPT during each semester (or equivalent time period during the summer) of the CPT employment. This is necessary for a paid or unpaid internship. This one credit is part of your required full time course registration (or full time equivalent course registration)

DO NOT Begin your position until you receive your new I-20 for CPT!

Please note: Applying for CPT authorization is not the same as being authorized to begin the paid or unpaid position you have been offered. You are not authorized to begin your position UNTIL you have the new I-20 for CPT in your possession, and the start date on the I-20 has arrived.

It is necessary for you to be very careful to obey the federal immigration regulations governing CPT. If you have any questions about when you can begin your paid or unpaid position please ask ISSS staff.

Registration for CPT uses the independent study form found on the ece.binghamton.edu web site under forms. Click the “Resources” tab to get to our forms.

ECE496 is your course name and number if you are an undergraduate student

ECE597 is your course name and number if you are a graduate student

CRN-go to BU Brain’s course schedule listing for the semester you are registering for and look up the ECE496 or 597 listing that corresponds to the professor who is your advisor.
