Library information to locate electronic theses.

START: University homepage (www.binghamton.edu)

SCROLL to the bottom of the page and click on “Library” under the Quick Links tab.

In the “Connect – Discover - Create” Click the “Databases” tab.

Key the word DISSERTATIONS (not case sensitive) in the search box and click SEARCH.

SELECT the second entry, “Dissertations and Theses @ Binghamton University”.

For best search results, use BASIC SEARCH (link immediately above “advanced search”)

Additionally, the library catalogs the electronic versions of our graduates’ theses and dissertations. A direct URL can be found in the catalog record. Simply search by author.

(Note: there IS a 6 to 9 month delay between the time an electronic thesis is submitted and the time it becomes available for reading/downloading.)
