Letters of Recommendation for Graduate Applications

MS applicants need 2 letters of recommendation in their application. PhD applicants need 3 letters of recommendation.

When you have submitted your application, if you need to remind a person you asked to submit a letter of recommendation for you or if you need to update an e-mail address, please go into your online application and click on “Recommendations.” The recommenders you added will be listed. Click “edit” next to the names and then click “Send Reminder” in the dialog box that will open.

Double-check that the email addresses are correct and then let your recommenders know that an email from “Binghamton University Graduate School” is coming.
