Step 1: Request STEM OPT EXTENSION I-20
Submit the STEM OPT Extension Application to the ISSS Office. The earliest you can apply for STEM OPT Extension is 90 days before your Post-Completion OPT expires.

Step 2: Prepare and mail your STEM OPT Extension Application
You will need to submit the required items to USCIS BEFORE your current Post-Completion OPT end date.

It can take USCIS up to 90 days to process your STEM OPT Extension application. You can continue to work for up to 180 days after your current Post-Completion OPT expires while you wait for your STEM OPT Extension EAD card.

Step 4: Report STEM OPT Extension Employment
As a student on STEM OPT Extension, you are required by US immigration regulations to report your employment information to the ISSS office.
The purpose of the Form I-983, a new requirement for 24-month STEM OPT Extension, is to ensure that students continue a rigorous training program that builds on the skills obtained as a full time student.

You and your supervisor must agree on the components of the plan as follows: the role of the student in the workplace, the goals and objectives of the proposed training, how the employer will provide oversight of the plan, and what set of measures and assessments will be used.

The Form I-983, along with the STEM OPT Extension application, must be submitted to the ISSS before you receive your new I-20. To receive your new I-20, please complete and submit pages 1-5 of the Form I-983. Please note, the I-983 form does NOT need to be submitted with your application to USCIS.

A full overview of the application requirements can be found on the Study in the States Hub.
