If you are a Binghamton University student, faculty or staff member connecting to the busecure wireless network for the first time:

- Choose Connect2BU in the list of available wireless networks, connect to it and wait until the connection is established.

- If a window does not automatically open, manually launch a browser and click on “Click here to use Join Now” to automatically configure wireless devices for busecure.

- Then follow the prompts.

Visitors may use Connect2BU for wireless access.

If you need to manually configure your device, directions can be found at http://wireless.binghamton.edu once you are connected to Connect2BU.
