**VOICE MAIL OPERATIONS**

(Instructions for Voice Mail owners)

**New Voice Mail Indicators**

Your voice mailbox contains unplayed messages if:
- You hear a stutter tone on the handset.
- OR
- The phone's message waiting light flashes.

**Checking Voice Mail**

To check voice mail from your extension

1. Press [Voice Mail] or lift the handset and press [#].
2. At the prompt, use the dial pad to enter your password. (If you have not been assigned a password, use the default password, 1234.)
3. Press [#].

**NOTE** If you are logging in for the first time, the system prompts you for a new password and asks you to record your name.

To check voice mail from another extension

1. Press [#] twice.
2. Enter your extension.
3. Enter your password.
4. Press [#].

To check voice mail from an external phone

1. Dial your voice mail access number.
2. Press [#].
3. Enter your extension.
4. Enter your password.
5. Press [#].

**Listening To Messages**

At the Main Menu prompt, press [1]. The voice mail system plays urgent messages first, then newly arrived messages.

The system gives the delivery date and time for each message. (You can disable this feature from the Mailbox Options Menu.)

**Managing Messages**

After listening to a message, you can replay it, send a reply to the person who left the message, forward it to someone else, replay the date and time information, save it, or delete it.

To replay all of your saved messages

As a safeguard against accidental erasures, the system retains deleted messages for a few hours.

**To listen to your deleted messages**

2. Press [7].

Voice mail plays all the deleted messages still available to the system. During playback, you can manage deleted messages as if they were newly arrived messages.

**To restore a deleted message**

- Press [2].

**To send a recorded message from voice mail**

After recording a message, voice mail asks you to supply an address.

1. Address the message to individual recipients by entering their extension numbers.
2. Specify groups of recipients by entering a distribution list number.
3. To identify a recipient by name, specify a personal distribution list, or broadcast to all extensions, press [0] and follow the prompts.

**Troubleshooting**

If the number of messages in your mailbox exceeds the limit, the system notifies callers that your mailbox is full and unable to accept new messages. (Recently deleted messages remain in the mailbox and are included in the total count.)

If your mailbox is full, first purge any backlog of deleted messages.

**To purge deleted messages**

1. At the Main Menu prompt, press [7].
2. Press [8] to remove deleted messages.
3. Press [1] to confirm deletion or [*] to cancel.

**Setting Call Handling And Forwarding**

When dialing into a ShoreTel system, if the person you are trying to reach does not answer, your call will be sent to a mailbox and you will hear a standard greeting. You can select from the following options:

- **Bypass greeting**
- **Transfer to assistant**
- **Forward to recipient's FindMe destination**
- **Transfer to Auto-Attendant**

**To change personal settings from the Main Menu, press [1] to assign the extension.**

**To un-assign the extension.**

(The phone reverts to its original extension.)

**Changing Extension Assignment**

If you have the proper permission, you can assign your extension to any phone on the system.

1. Log in to voice mail from the target phone— an extension other than your own.
2. At the Main Menu prompt, press [7].
5. Press [2] to un-assign the extension. (The phone reverts to its original extension.)

**NOTE** Use ShoreWare Call Manager to configure the modes with different call forwarding destinations and personal greetings.

You can set one of five distinct call handling modes for your extension. When you record a personal greeting, it is linked to the active call handling mode.

To enable one of the five distinct call handling modes:
- Press [2], then follow the prompts.

**Troubleshooting**

If the number of messages in your mailbox exceeds the limit, the system notifies callers that your mailbox is full and unable to accept new messages. (Recently deleted messages remain in the mailbox and are included in the total count.)

If your mailbox is full, first purge any backlog of deleted messages.

**To purge deleted messages**

1. At the Main Menu prompt, press [7].
2. Press [8] to remove deleted messages.
3. Press [1] to confirm deletion or [*] to cancel.

**Leave Message**

When dialing into a ShoreTel system, if the per-
